**DETAILED ACTION**

***Response to Amendment***

1. Examiner noticed the amendments made on the claims 1 and 5-7. Claim 4 has been canceled.

***Allowable Subject Matter***

2. Claims 1-3 and 5-7 are allowed.
3. The following is a statement of reasons for the indication of allowable subject matter: prior art of records neither anticipates nor renders obvious the limitations of having a recyclable, one time use, print on demand digital camera comprising a page-width print head for printing a sensed image and a casing surrounding and encasing said chassis so that the ink supply means is unable to be accessed without destruction of the casing.

Regarding claim 1, Maeda discloses a digital camera comprising a chassis (See figs. 1 and 3B) comprising: an image sensor (Fig. 4A: 101) for sensing an image (Col. 10, line 49 – col. 11, line 12); a processing means for processing said sensed image (Col. 10, line 49 – col. 11, line 12); a print head (Figs. 5-7) for printing said sensed image (Col. 14, line 64 – col. 15, line 6); an ink supply means (Figs. 5: 416 and 7: 416) for supplying ink to the print head; and a casing surrounding and encasing said chassis (See camera body in fig. 1), wherein the ink supply means comprises an ink supply cartridge which defines a plurality of ink supply channels, each of which is in communication with the print head and each channel containing a different color ink, in use for enabling full color printing to be effected (Col. 14, line 64 – col. 15, line 6; col. 16, line 35 – col. 17, line 4).

However, Maeda fails to teach or suggest the digital camera as a recyclable, one time use, print on demand digital camera comprising a page-width print head for printing a sensed image and a casing surrounding and encasing said chassis so that the ink supply means is unable to be accessed without destruction of the casing.
